## Experience

Moignard Digital Solutions

Managing Director

December 2019 - Present (4 months)

Melbourne, Australia

My expertise includes: Ruby on Rails, PostgreSQL, React JS, Javascript,  
Redux, Docker, JQuery

My team's expertise includes: React Native mobile development & Dev Ops  
(Terraform, Docker, Kubernetes)

I work with 3 remote developers closely; a Junior Developer with a degree in  
Com Sci based in Melbourne, and 2 Senior Developers based in Shenyang,  
China. If any project requires more man power my devs in China work along  
side 20+ freelance developers, with affordable hourly rates and deep expertise  
in all aspects of software development from Game Development to Machine  
Learning.

Hey Influencers

Lead Developer

April 2019 - Present (1 year)

Melbourne

Freelance Software Development

Freelance Full Stack - Ruby on Rails & iOS Developer

October 2015 - Present (4 years 6 months)

Melbourne, Australia

Cool Shirtz

Content Creator - Producer

January 2018 - December 2019 (2 years)

Melbourne

NEON: An action short film shot in the streets of Hong Kong

Executive Producer

September 2016 - September 2017 (1 year 1 month)

Melbourne, Australia

My responsibilities included finding and interviewing prospective crew members, managing social media accounts, developing our crowd funding campaign and managing communications with our 20+ person crew.

Plfer.com

Junior Software Developer - Internship

September 2016 - December 2016 (4 months)

Coonawarra, South Australia

My main responsibilities during my Internship at Plfer included copyright infringement discovery using the Plfer web-scraping tool tools, Database management & Front End Development. At Plfer we used Windows, Apache, MySQL and PHP7.

More Information regarding Plfer can be found at their website : <https://m.plfer.com/index.html?mode=owners#about>

Melbourne University Electrical Engineering Club

Interim President & Committee Member

March 2015 - November 2016 (1 year 9 months)

Melbourne, Australia

Working with the other fantastic members of the electrical eng. club. I wrote and ran soldering workshops, arduino programming workshops and a weekly hackerspace!

Elena AI

Lead Software Developer

June 2016 - July 2016 (2 months)

Nice Area, France

Gathered a team with 4 other students from the European Innovation Academy. Built a prototype of ELENA a chat bot that uses text-to-speech and speech-to-text to help students practice new languages with an AI.

---
